- Problem-Solving.
- Teamwork.

EDUCATION

BACHELOR OF TECHNOLOGY

Acharya Institutes of Technology

SECONDARY SCHOOL

G K DHOLAKIA SCHOOL

EXPERIENCE

LOGISTIC INFOTECH

SOFTWARE & WEB DEVELOPMENT COMPANY

2022 - Present

- **INTERN for Front-end Web Developer since 1st August 2022**
- **Things learned till date in the training program :**
 - Created Web Pages & Demo Projects using Html, CSS, and JavaScript to display and provide dynamic functionality for users.
 - Created projects with the basic functionality of react js.
 - How to apply different npm packages (bootstrap, font awesome, react icons, styled-components, etc..) in react projects.
 - How to use Context and Redux toolkit & different functionality of react js in projects.
- **Projects:**
 - Movie DB page using diff. packages like Axios, moment, styled components, and font-awesome.
 - Integration of small projects into one project with login log-out functionality. where you can access that particular project from the sidebar or drop down from the navbar. I have used the redux toolkit, react-router, and other packages for functionality.
 - Youtube clone with basic functionality.
 - Google search page clone.
